

GRAND BALLROOM EVENTS — DAILY DEVELOPMENT JOURNAL

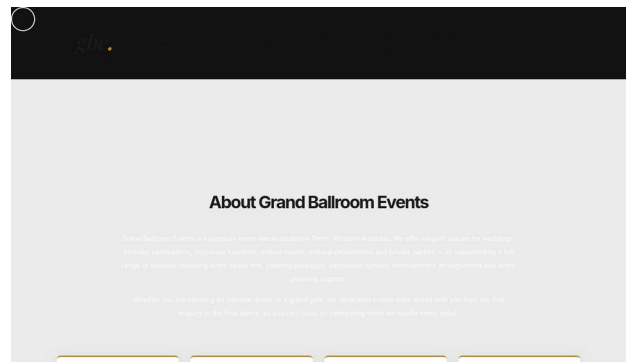

Year 11 Applied Information Technology ATAR | Unit 2 Task 10: Website Project
Student Developer: kmaba | Venue: Grand Ballroom Events, Perth WA | Sprints: July 21 – August 17, 2026

Sprint 1: Architecture, Information Architecture & Project Setup (July 21 – July 25, 2026)

- **Monday 21 July 2026:** Dissected the Grand Ballroom Events client design brief. Identified key deliverables: luxury branding, static internal navigation bookmarks, 6 core sections, dual booking routes, responsive layout, and APA 7 referencing.
- **Tuesday 22 July 2026:** Established user personas for wedding couples, corporate planners, and birthday organizers. Drafted project Gantt chart and created initial GitHub repository structure.
- **Wednesday 23 July 2026:** Constructed semantic HTML scaffolding for index.html including header, hero section, facilities grid, pricing tables, gallery container, testimonials, and contact footer.
- **Thursday 24 July 2026:** Engineered initial responsive CSS Grid layout structure. Verified bookmark anchors (#about, #facilities, #packages, #gallery, #testimonials, #contact).
- **Friday 25 July 2026:** Completed Sprint 1 retrospective. Staged initial HTML5 structure in VS Code and confirmed cross-browser baseline rendering.

VS Code editor: Semantic HTML scaffolding and navigation bookmark structure.

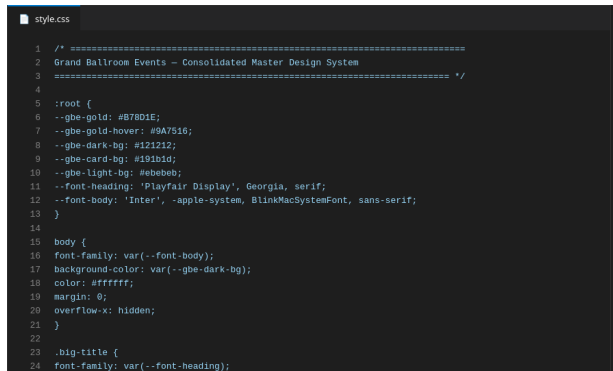

Initial layout rendering: About Us section with service feature cards.

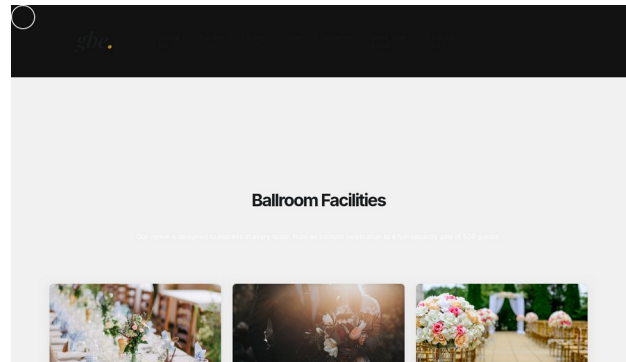

Sprint 2: Styling Design System, Asset Curation & Facility Cards (July 28 – August 1, 2026)

- **Monday 28 July 2026:** Defined master design tokens in CSS: Luxury Gold accent (#B78D1E), deep obsidian backgrounds (#121212, #191b1d), Playfair Display serif headers, and Inter body sans-serif.
- **Tuesday 29 July 2026:** Curated 20 high-resolution ballroom photographs from Unsplash under the Unsplash License and formatted initial APA 7 bibliography entries.
- **Wednesday 30 July 2026:** Constructed the Ballroom Facilities 6-card grid with hover depth effects, image scaling, and responsive card wrapping.

- **Thursday 31 July 2026:** Engineered the 3-tier Event Packages pricing section (Essential \$2,500, Premium \$5,000, Platinum \$8,500) with visual emphasis on the featured package.
- **Friday 1 August 2026:** Implemented client testimonials carousel and contact form styling with floating label inputs and golden CTA buttons.

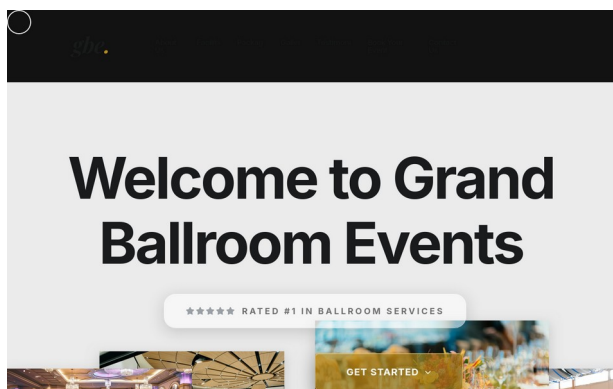

VS Code editor: Master style.css design system tokens and typography rules.

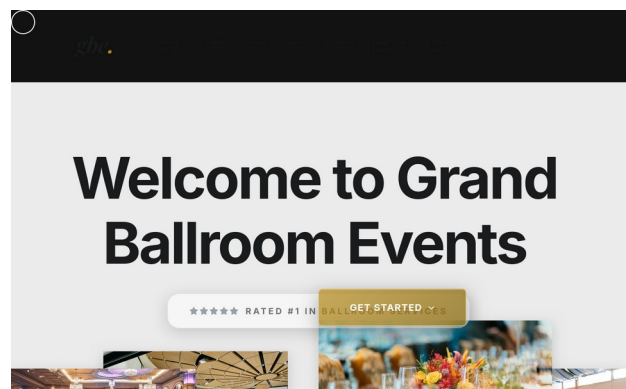

Live styling: Ballroom Facilities showcase with high-res photography.

Sprint 3: Animations, Splash Loader & Hero Refinement (August 4 – August 8, 2026)

- **Monday 4 August 2026:** Rebranded site identity to Grand Ballroom Events. Initialized GSAP timelines for parallax image fans and headline letter reveals.
- **Tuesday 5 August 2026:** Added custom splash screen loader with 0–100% numerical count-up and frosted glass tagline badge ('Rated #1 in Ballroom Services').
- **Wednesday 6 August 2026:** Refined Hero CTA buttons into a consolidated 'Get Started' dropdown menu to eliminate clutter and provide direct links to booking subpages.
- **Thursday 7 August 2026:** Integrated Locomotive Scroll momentum physics and smooth in-page bookmark navigation across desktop and tablet viewports.
- **Friday 8 August 2026:** Added responsive video gallery support with vertical reels and optimized mobile touch gestures.

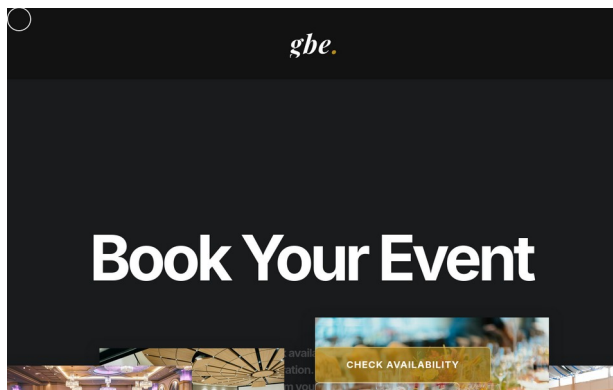

Hero iteration: Parallax multi-image fan and frosted glass rating badge.

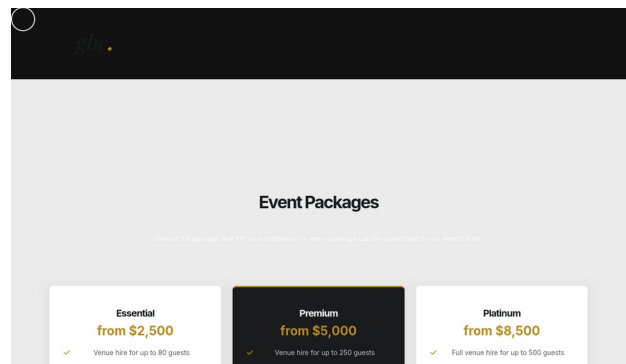

Hero CTA refinement: Interactive 'Get Started' dropdown menu.

Sprint 4: Subpages, Peer Evaluation, Consolidation & Final Delivery (August 10 – August 17, 2026)

- **Monday 10 August 2026:** Built dedicated Check Availability page (dark.html) with interactive date picker, event type selector, and 24-hour turnaround notice.
- **Tuesday 11 August 2026:** Built Request a Booking page (dark2.html) and simplified sister page headers with a clean, centered logo-only header.
- **Wednesday 12 August 2026:** Conducted formal peer review with classmate Anzar. Evaluated navigation speed, mobile responsiveness, and form clarity.
- **Thursday 13 August 2026:** Implemented Anzar's feedback: added direct Testimonials navbar link, adjusted splash loader duration to 3s, and enabled video autoplay.
- **Friday 14 August 2026:** Created References page (references.html) with full APA 7th edition attributions and one-click PDF print functionality.
- **Monday 17 August 2026:** Consolidated all stylesheets into unified style.css, embedded JavaScript directly inline across HTML files, and finalized project documentation.

Dedicated booking subpage: Check Availability interface (dark.html).

Final package comparison grid with transparent pricing and booking links.
